

# Radio

pureNRG

verybody has a song to sing,  
don't keep it to yourself.  
Everybody has a gift to bring,  
don't leave it on the shelf.  
Everybody has a part to play,  
right where you are.  
And everybody has their very own way  
to shine like a star.

[CHORUS]

So when you hear this on the radio  
from NYC to LA  
Remember love can make us one  
One world, one hope, one human race  
So everybody join your hands and sing  
'cause you know we can make a change  
So when you hear this on the radio  
Let it play, let it play, let me hear you say  
Na na na na on the radio  
Na na na na on the radio  
Na na na na on the radio  
Na na na na na na

Everybody's had one of those days  
when nothing's going right.  
Everybody's had some heartache,  
some lonely tears they've cried.  
But everybody's got love to give  
and arms to hold  
Anybody who needs a friend,  
you're not alone.

[CHORUS]

So when you hear this on the radio  
from Africa to Bombay  
Remember love can make us one  
One world, one hope, one human race  
So everybody join your hands and sing  
'cause you know we can make a change  
So when you hear this on the radio  
Let it play, let it play, let me hear you say  
Na na na na on the radio  
Na na na na on the radio  
Na na na na on the radio  
Na na na na na na

Let's come together  
and love each other  
Let's let the whole world see

[CHORUS]

So when you hear this on the radio  
from your hometown to outer space  
Remember love can make us one  
One world, one hope, one human race  
So everybody join your hands and sing  
'cause you know we can make a change

So when you hear this on the radio  
Let it play, let it play, let me hear you say  
Na na na na on the radio  
Na na na na on the radio  
Na na na na on the radio  
Na na na na na na
