

## many lives

Purity Ring

I have your hands  
My precious my head  
Strands where I've been  
Weave words you said

Take out my eyes  
For lucky stones  
Staring at you  
Feel tremors through

House of a dream  
Walk into me  
Dead in the morning  
Shines the eve

Fire pouring out  
The blinking stones  
A blanket thrown  
You're not alone

(You're not alone)  
(You're not alone)

You know I've lived many lives  
Many lies many tides  
Hang me high over the hills  
Water cries broken by

Long as the road of dreams where I leave you  
Blue as the veins we separate into  
Not all was said for words leave a shadow  
Leave me behind, within, between, below  
Follow the sun a thread spun around me  
Your word a breath I held it inside me  
Run running through the places I won't be  
Stand next to me the river in memory

It's only age  
And all I've seen  
Born of a cave  
I'm opening

Take out this heart  
In beating heat  
Then rinse it in the  
River deep

Now as I watch  
You bow your head  
There is no other  
Way you said

Still I shine from  
This watching eye  
Facing toward  
What faces mine

Turn my shadow three times round in  
To the long night, blinking out like

Long as the road of dreams where I leave you  
Blue as the veins we separate into  
Not all was said for words leave a shadow  
Leave me behind, within, between, below  
Follow the sun a thread spun around me  
Your word a breath I held it inside me  
Run running through the places I won't be  
Stand next to me the river in memory
