

# stardew

## Purity Ring

Drive me like we daydream  
To the edge of where you start  
Leave me in the afterglow  
The dew of dying stars

A storm is coming  
I feel it in my scars  
And in the morning  
We'll wonder where we are  
Nothing lies above  
Nothing lies below  
Leave me here floating  
Oh, I will know I know

How you move  
How you knew  
Hold me down  
Hold me true  
How you move  
How you knew  
Your ever beating heart  
Nothing seems so far

Drive me like we daydream  
To the edge of where you start  
Leave me in the afterglow  
The dew of dying stars

The world turns over and I'll be lost in you  
Hide in the static, go push me through and through  
And I will fall from your sweet height to prove  
That all I am is meant to bleed and bloom

How you move  
How you knew  
Hold me down  
Hold me true  
How you move  
How you knew  
Your ever beating heart  
Nothing seems so far

Drive me like we daydream  
To the edge of where you start  
Leave me in the afterglow  
The dew of dying stars

I know it seems far  
But just be where you are  
I know it seems far  
But just be where you are

Be where you are  
Be where you are  
Be where you are  
Be where you are

I know it seems far  
But just be where you are
