

# Can't Get Enough

## Purple Disco Machine

You took my heart  
That was the start  
I fell so hard  
You hit my blood  
Ecstasy rush  
Can't get enough

Electric, your love is like a lightning bolt  
Plug me in and hit me with a thousand volts

I fell in love  
I took a puff  
I can't get enough  
You're in my blood  
Another drug  
I can't get enough

Dopamine exploding like a firework  
Just one kiss and we can make the colours burn

I fell in love  
I took a puff  
I can't get enough  
You're in my blood  
Another drug  
I can't get enough

I fell in love  
I took a puff  
I can't get enough  
You're in my blood  
Another drug  
I can't get enough

Electric love

Ooh ooh ooh  
I fell in love  
I took a puff  
I can't get enough  
You're in my blood  
Another drug  
I can't get enough

I fell in love  
I took a puff  
I can't get enough  
You're in my blood  
Another drug  
I can't get enough
