Class in session
I know what you waiting for
I know what you want to see
Fantasies, I know, I know, I know
Class in session
Tell me what you waiting for
Tell me what you want to see
Fantasies alone

Yeah, I'm plotting again
Where's everybody who doubted, they gone with the wind
This for the hours I put in, I know I'ma win
This for the limits you put in, I show up again
Again and again
I got my back to the ropes
Down on my luck only made me an animal tho
Nobody here that's telling me no
You give me a challenge, I end it for sure
Did it for sport, I did it for sport
Aye, you never been touched that way before
Loved that way before
Never been held down, held down, held down so long

Class in session
Let me find out who's next to go
Let me find out who's next to see
It's ecstasy, I know

Class in session
I know what you waiting for
I know what you want to see
Fantasies, I know, I know, I know
Class in session
Tell me what you waiting for
Tell me what you want to see
Fantasies alone

Running with my eyes closed
Dodging the pot holes
I look at the watch, it tell me I'm next
If not then now tho
If not then now tho
If not then now tho
If not then now tho
Running with my eyes closed
Dodging the pot holes
If not then now tho
If not then now tho
If not then now

Tell me what you waiting for
Tell me what you want to see

Class in session
Tell me what you waiting for
I know what you want to see
