You said you waitin' on your boyfriend
He never came to pick you up, so far from home
Oh
And now you're sittin' here all lonely
Come to tell you this gon' be alright, I know
I know
See, I am goin' to the city, if you want you can come join me
Girl, come on
Tonight we party, this is fact
Will make you happy just like that
See, all my people so excited, you're invited
'Cause I like you, girl

Hey, how you doin' tonight?
I think you're gonna be alright
Oh
Do you know what I mean?
Sexy, shake that body for me
Come on, oh, were you goin' to stop?
So heavy, girl, the sky will drop
Come on, come on, come on, come on, come on
This is your encore

Yeah
This is your encore
Yeah

Oh
There is a room full of people
As the DJ does his thing, you say groove on
Come on
I testify your smile is back
I touch your body as we dance
I hear the music as it's spoken
And we're goin' on a trip now, girl

Hey, how you doin' tonight?
I think you're gonna be alright
Oh
Do you know what I mean?
Sexy, shake that body for me
Come on, oh, were you goin' to stop?
So heavy, girl, the sky will drop
Come on, come on, come on, come on, come on
This is your encore

There's nothing conflictual
What we do consensual
Are you workin' tonight?
Are you workin' tonight?
