

# Hypnotized

## Purple Disco Machine

Feel buried alive  
This city is airtight  
Suffocating, lonely in the crowd

I'm surrounded by  
All the screens of their lies  
Screaming into space to drown them out

I fell down so low  
Found nowhere to go  
But I know you wait for me  
You wait for me  
So far out of sight  
Swept into the white  
But I know you wait for me  
I'm coming home, I'm coming back down tonight

'Cause I've been hypnotized by the lights  
But I'm coming home, I'm coming back down tonight  
Yeah, it's taken time to realize  
But I'm coming home, I'm coming back down tonight

So hold me tight  
I just wanna fade out  
Somewhere we can shut the world away

I'm ready to hide  
Far from the fallout  
They won't find us in the paradise we'll make

I fell down so low  
Found nowhere to go  
But I know you wait for me  
You wait for me  
So far out of sight  
Swept into the white  
But I know you wait for me  
I'm coming home, I'm coming back down tonight

'Cause I've been hypnotized by the lights  
But I'm coming home, I'm coming back down tonight  
Yeah, it's taken time to realize  
But I'm coming home, I'm coming back down tonight

I'm coming home, I'm coming back down tonight  
I'm coming home, I'm coming back down tonight

Free-falling from the high  
I'm following the voice I know  
Free-falling from the high  
I'm coming home, I'm coming back down tonight

'Cause I've been hypnotized by the lights  
But I'm coming home, I'm coming back down tonight  
Yeah, it's taken time to realize  
But I'm coming home, I'm coming back down tonight

I'm coming home, I'm coming back down tonight  
I'm coming home, I'm coming back down tonight
