

A Singularity

Puscifer

There's only you
Nothing before you
Only you
Nothing beyond you
So now I'm without you
In come the strangers
Invade
Inquire
Probe
Go

Leave me
Leave me to my darkness
Leave me to my grieving, go
Leave me to my silence
Go, go
Leave me be

Crest of the wave
Beauty behold you
Only you
Gave me my reason
You
You were my moment
And now your moment
Your fire
Your sigh
Gone
Gone
God damn

God damn a
A stranger's cold kindness
God damn the sun
God damn the sun
Leave me to my darkness
Go, go
God damn a
A stranger's cold kindness
God damn the sun
God damn the sun
Leave me to my darkness
Go, go
Leave me be
