## World Up My Ass

I've got the world up my ass Gonna move fast Be the first Won't be the last I've got the world up my ass

Society is burning me up Take a bite, spit it out Take their rules Rip 'em up, tear them down

Twisted mind, withered brain You know I'm going insane I just tell them to get back When they tell me how to act I've got the world up my ass

You know I've got the world up my ass

Puscifer
