

This is Us Breaking Up

Push Play

You can try and break me down
Baby but I'm finally breaking out
So roll the credits and just forget it
I'll make it thought somehow
And don't go and change your mind
Honey but it's not gonna work this time
I'm biting my lip I'm holding it in
I'm leaving you behind

(Chorus:)

Tell me can you hear me? (screaming out)
The next time you see me (keep your head down)
'Cause I'm not gonna miss you
I've got all the pictures and scissors
I'm cutting you out!

Say that you need me
I'll say that I'm leaving goodbye
I'm better off here without you
And I don't give a damn about you
Say that you need me
I'll say that I'm leaving goodbye
I'm better off here without you
And that's just how I feel about you now

You can try and stand up tall
But girl you know your backs against the wall
This story's ending so stop pretending
I cared for you at all
So call up the EMT
Baby your not gonna take this lightly
And for the record I burned your letters
They meant nothing to me

Tell me can you hear me? (screaming out)
The next time you see me (keep your head down)
'Cause I'm not gonna miss you
I've got all the pictures and scissors
I'm cutting you out!

Say that you need me
I'll say that I'm leaving goodbye
I'm better off here without you
And I don't give a damn about you
Say that you need me
I'll say that I'm leaving goodbye
I'm better off here without you
And that's just how I feel about you

I apologize for breaking down
This is us breaking up
The moment is over
And I told you it's not working out
So stop your crying now
It's off my shoulders

Tell me can you hear me? (screaming out)

The next time you see me (keep your head down)
'Cause I'm not gonna miss you

Say that you need me
I'll say that I'm leaving goodbye
I'm better off here without you
And I don't give a damn about you
Say that you need me
I'll say that I'm leaving goodbye
I'm better off here without you
And that's just how I feel about you

(I apologize for breaking down
This is us breaking up)
Say that you need me
I'll say that I'm leaving goodbye
I'm better off here without you
And that's just how I feel about you
