

# No Problem

Pusha T

If I am the problem  
Then you cannot solve it  
You live in the cross hass  
When you want to talk it  
It's hard to stay in the ground  
The brighter you stuck it  
From sun of the sun down  
I'm glowing regardless  
We came with the mission  
To corner the market  
To take you gotta be harmness, one of the hardest, ow!

I'll be the realest one alive, you don't want no problems  
Take you down and it gon' be no problem, yeah  
I get the feeling like I'm high  
All my life you ain't gon' walk these problems  
Take you down ain't gon' be no problem, yeah  
Don't you play with God  
I got the ticket of squad, coming for you  
I got diamonds dancing in my mouth  
Think you're the king of this house, so coming for you  
I'll be the realest one alive, you don't want no problems  
Take you down and it gon' be no problem, yeah

Dead or alive, I'm wanted  
Just like a ghost, I'm haunted  
I'm callin' the shots, you callin' the cops  
The angel of death is upon us  
It's not a threat, it's a promise  
Killing and will if we honest  
I tell you, no lie, it's tickle and high  
And you like the one with the monsters  
I am the power (yeah)  
I got the problem (yeah)  
I got the pool, I run with the bulls  
You run with the cowards  
There ain't no vowers, this thing is ours (yes)  
I put out the heat, you funeral's lit  
I showed up with flowers

I'll be the realest one alive, you don't want no problems  
Take you down and it gon' be no problem, yeah  
I get the feeling like I'm high  
All my life you ain't gon' walk these problems  
Take you down ain't gon' be no problem, yeah  
Don't you play with God  
I got the ticket of squad, coming for you  
I got diamonds dancing in my mouth  
Think you're the king of this house, so coming for you  
I'll be the realest one alive, you don't want no problems  
Take you down and it gon' be no problem, yeah
