

Closer To You

Pussycat

Closer to you I found love I didn't know
Closer to you it took time so I could grow
You say each life is a reason to be with
Someone who keeps asking
Never loved at all

Closer to you takes another way to feel
Closer to you playing apart becomes unreal
'Cause you know loving, oh the loving
Closer to your loving
I have to be near

Closer to you every emptiness is gone
Closer to you there's a place where I belong
You say each other made to be a lover
No-one's ever meant for anyone to hold

Closer to you every moment has a start
Closer to you I have learned to be apart
'Cause you know loving, oh the loving
Closer to your loving
I have to be near
