

I'm Still In Love With You

Pussycat

All those years ago you left me standing there
Some other girl had caught your eye
You where young and oh so fancy free
You didn't know what it did loving me

I'm still in love with you
I still have dreams of you
If I could come to you, I would, I swear, I'd run to you
I'm still in love with you
I was so true to you
If I could live with you, I would I swear, I'd give to
you
I'm still in love with you

Now I heard she left you for another guy
I guess you feel the way I did
Somewhere far, I'd like to write to you
and let you know that I'd love seeing you

I'm still in love with you
I still have dreams of you
If I could come to you, I would, I swear, I'd run to you
I'm still in love with you
If I could live with you, I would, I swear, I'd give to
you

Now the girl who lives with him
is never free
And she looks a bit like me and so like you
I'm still in love with you
