

## Just A Woman

Pussycat

Every time you want me I am there  
If I'm glad to see you, you don't care  
Just knocking on my door and call my name  
And I've got it for you and for you again

I must clean your kitchen, scrub your floor  
You don't mind whatever I adore  
I'm glad that I could sleep a bit at night  
Tomorrow comes another day, I hope I'll be alive

I'm just a woman and you know it  
So you take everything you can  
In the morning, in the evening  
What you proving, what you really proving

I'm just a woman but I'm living  
So don't you treat me like a toy  
You can hire if you desire  
Tell me the words that you love me the same way too

Never wanna miss a late night show  
Anything I'm asking you don't know  
And you never take some time to notice me  
As long as you've got cookies you can soften lemon tea

I'm just a woman and you know it  
So you take everything you can  
In the morning, in the evening  
What you proving, what you really proving

I'm just a woman but I'm living  
So don't you treat me like a toy  
You can hire if you desire  
Tell me the words that you love me the same way too  
Tell me the words that you love me the same way too
