

## Someday

Pussycat

Our love has broken, when you closed my door  
Words that was spoken just worked out no more  
On a blue Monday, you've turned our love down  
I've seen my picture, lied crushed on the ground

But someday I'm gonna be loved again  
Huh, huh, I don't know when  
Someday I'll be at your side  
Feel all the love that I miss tonight

Someday there'll be words to find  
Huh, huh, to change your mind  
Someday you'll be here and then  
We'll be together again

I see the morning becomes afternoon  
And when the evening sends night to my room  
Tears I've been crying like drops in the rain  
Dreaming about you just drives me insane

But someday I'm gonna be loved again  
Huh, huh, I don't know when  
Someday I'll be at your side  
Feel all the love that I miss tonight

Someday there'll be words to find  
Huh, huh, to change your mind  
Someday you'll be here and then  
We'll be together again  
(Together again)  
We'll be together again  
(Together again)  
We'll be together again  
(Together again)  
We'll be together again
