

Take A Look At Me

Pussycat

I always thought you were
The one who'll make it all come true
I always thought you were
The one who'll help it making true
Just a dream, now I can realize
Just a dream, baby it ain't coming really it ain't coming true

I always hoped you were
The one who'll always treat me right
I always hoped you've been
The one who'll make wrong come right
Just a dream, now I can realize
Just a dream, baby it ain't coming really it ain't coming truing

Take a look at me, I will start to see
Take a look at me, tell me what you see
Is that the face you really want to see
Take a look at me, I will start to see
Take a look at me, tell me what you see
Is that the face that now belongs to me

I never thought you were
The one who'll let me down some day
I never thought you've been
The one who want forget someday
Never dream, now I can realise
Never dream, baby they sometimes come really they sometimes come true

Take a look at me, I will start to see
Take a look at me, tell me what you see
Is that the face you really want to see
Take a look at me, I will start to see
Take a look at me, tell me what you see
Is that the face that now belongs to me

You got to try it boy to turn around
It's time to tell me that you love me

Take a look at me, I will start to see
Take a look at me, tell me what you see
Is that the face you really want to see
Take a look at me, I will start to see
Take a look at me, tell me what you see
Is that the face that now belongs to me

Take a look at me, I will start to see
Take a look at me, tell me what you see
Is that the face you really want to see
Take a look at me
