

What Did They Do To The People

Pussycat

I've been away, but please don't blame me that I'm back
Forget I didn't sleep in fame
I only know it's long ago I tried to understand
What it's like to feel this world again

I'm going back in my memory
Where I been happy before
No-one seems sad when he leaves me
Take me to a place where I can feel this no more

What did they do to the people
Who turns to you just to love you all day?
What did they do to the people?
I've seen enough, you can take me away

What did they do to the people
Who turns to you just to love you all day?
What did they do to the people?
I've seen enough, you can take me away

Got a picture lesson when I said I'm feeling down
Help me to find my way back home
All I need is someone to be sweet when I'm alone
Strange that things don't change when you're around

Let me be loved just a little bit
Cause I've never felt a love before
And if you say you don't mean it
Take me to a place where I can feel this no more

What did they do to the people
Who turns to you just to love you all day?
What did they do to the people?
I've seen enough, you can take me away

What did they do to the people
Who turns to you just to love you all day?
What did they do to the people?
I've seen enough, you can take me away

What did they do to the people
Who turns to you just to love you all day?
What did they do to the people?
I've seen enough, you can take, you can take, you can take me a
way
