

Hey, How Are You?

Putri Ariani

Hey, how are you?
I, think of you
In this silent
Your voice taken

And with all my regret
I hate to say that
Wish I could turn back time
Wish I could get back to you

I know you will never know
I miss you but I let you go
I let you go

And I...
Still remember all the memories that we made
You that I love
And you that I need
But I know that you'll never here

I know you will never know
I love you
I miss you but I let you go

And I...
Still remember all the memories that we made
You that I love
And you that I need
But I know, but I know

And I...
Still remember all the memories that we made
You that I love
And you that I need
But I know that you'll never here
