

Gemini, won't you meet me eye to eye?  
I've been wondering why you keep feeding me these lines  
And you made a fool of me  
Yeah you made a fool of me  
As you sang me sweet

You charm me, it's not easy  
You would not believe how the tides have turned  
You think I would have learned this by now  
If I'm gonna play your games, I know there's a price to pay  
I've got the tendency to constantly pay for my mistakes

Gemini, when you come out at night  
My head spins and I cave in and I can't pick sides

Gemini, won't you meet me eye to eye  
I've been wondering why you keep feeding me these lines  
Gemini, yeah as you can see  
Why you had your way with me  
(You made a fool of me)

You would not believe  
You would not believe  
All the things I've seen

If I'm gonna lose this game, what's the use in trying to play?  
I shouldn't expect any less but I can't always have my way  
Gemini, when you come out at night  
My head spins and I cave in and I can't pick sides

Gemini, won't you meet me eye to eye  
I've been wondering why you keep feeding me these lines  
Gemini, yeah as you can see  
Why you had your way with me  
(You made a fool of me)

You've got your hooks in my back, I feel their cold sting  
You've got me strung out like a puppet while you pull on these strings  
You would not believe the things I've seen  
You would not believe the things I've seen

Gemini, won't you meet me eye to eye  
I've been wondering why you keep feeding me these lines  
Gemini  
Yeah as you can see  
Why you had your way with me  
(You made a fool of me)
