

# Monster

PVRIS

Where do I begin?  
I can't explain it  
Know you wasted 20 plus years  
Like photos fading in  
I see 'em changing all the faces  
Waiting up all night  
seeing red flags in the morning  
It's a warning a warning  
Its a sure sign  
Where do I begin?  
I can't explain it  
Now you're wasted

How could you let them do this to you?

How could you let them turn you into a monster?  
Your bridge started to burn when you ran all across it  
I guess you never learn 'til you live and you lost it  
Live and you lost it

Going on a whim try to erase it  
Leaving traces; sweat, blood, tears  
find your head on the pavement  
Know you're jaded, sick of playing  
Waiting up all night  
throwing white flags in the morning  
It's a warning, warning,  
Its a sure fire  
Going on a whim  
try to erase it  
all the traces

How could you let them do this to you?

How could you let them turn you into a monster?  
Your bridge started to burn when you ran all across it  
I guess you never learn 'til you live and you lost it  
Live and you lost it

Monster  
in your blood on a cold night  
Monster  
It's a curse its a sure sign  
Monster  
in your blood on a cold night  
Monster  
It's a curse!

How could you let them do this to you?

How could you let them turn you into a monster?  
Your bridge started to burn when you ran all across it  
I guess you never learn 'til you live and you lost it  
Live and you lost it
