

My Way

PVRIS

If there's a war I'm gonna conquer it
Don't give a fuck about a consequence
If I'm on the edge, I'm going over it
Spin around, Russian roulette
Razor-sharp teeth, I bite bullets
I don't hesitate, just take, take, take the risk

Turn the days into nights
Hit the switch in my mind
I walk through phases of life
No restraint, no rewind

My, my, my way
My sweat, my blood, my pain
My, my, my way
My fear, my fire, my flame, yeah
My, my, my way
My sweat, my blood, my pain
My, my, my way
My fear, my fire, my flame

Say you don't fuck with the psychic shit
But you're running with a bad bitch sorceress
Keep your eyes up, don't blink, you'll miss
I don't ever fight, just blow a kiss
And I've got two fists, but I'm a pacifist
And I'd rather stay high and just take, take, take the hit

Turn the days into nights
Hit the switch in my mind
I walk through phases of life
No restraint
You don't ever wanna be the one to get up in my

My, my, my way
My sweat, my blood, my pain
My, my, my way
My fear, my fire, my flame, yeah
My, my, my way
My sweat, my blood, my pain
My, my, my way
My fear, my fire, my flame

My, my, my way
It's a game of give and take now
Some things, they stay
Some things, they change
Hey

My, my, my way
It's a game of give and take now
Some things, they stay
Some things, they change

My, my, my way
My sweat, my blood, my pain
My, my, my way

My fear, my fire, my flame, hey
My, my, my way
My sweat, my blood, my pain
My, my, my way
My fear, my fire, my flame
