

# Stay Gold

PVRIS

If you're just a wind passing through, I'd still be grateful  
But I pray to God every day that we don't break, no  
You've seen my dark side, I left it on the table  
Oh, oh  
Don't wanna trap you in a song like all the others  
'Cause they're dying off every night next to each other  
Leave them on a stage 'til they fade and I don't love them  
Anymore

And I wish I

Wish I could keep you in amber  
Safe from the outside  
Hope that you'll always stay gold  
Wish you could stay here forever  
Safe from this bad world  
Hope that you'll always stay gold

Hope that you're here for life, if you're not, then there's no hate, but  
But I pray to God every night, make sure that fate don't  
Throw you to the fire, leave my side, and break the chains off  
Oh, oh  
Don't wanna sing you to a sea of blurry strangers  
Want this crystal clear and sincere, can't let them taint you  
Even if you break my heart  
I won't let them taint you

And I wish I (Wish I)

Wish I could keep you in amber  
Safe from the outside  
Hope that you'll always stay gold  
Wish you could stay here forever  
Safe from this bad world  
Hope that you'll always stay gold

Wish I could keep you in amber  
Safe from the outside  
Ooh, ooh, ooh  
Hope that you'll always stay gold

But you're too damn precious, babe  
You're just so innocent

Wish I could keep you in amber  
Safe from the outside  
Hope that you'll always stay gold  
Wish you could stay here forever  
Safe from this bad world  
Hope that you'll always stay gold
