She Cries

Pyogenesis

Too much anger, too much argue
That seems not ok
I don´t see a need to change my mind
so tell me how about you
It has to be over – no need for a lie
It has to be over – let´s say good bye
It has to be over – even if she cries
How much longer you want to go on
some things never change
I don´t want, I don´t need, I don´t see a way out
We won´t rearrange
It has to be over – no need for a lie
It has to be over – let´s say good bye
It has to be over – even if she cries
