

Fearless

Pyramaze

I lost my way on the night of equation
A crowd of noise, a show of hands
They all ran wild, proclaiming "we know who you are"

Something deep inside me cried ("It's over")
"Walk away before you fight"
The riot kept on pushing through ("There's only...")
'Till there was only one thing left to do

Fearless
I just can't hold back what's on my mind
So fearless
My actions are regarded simply unrefined

I tracked 'em down and stripped them of answers
Until they were just scared young boys
One by one they broke down, now that's who I am

Something deep inside me cried ("It's over")
"Let them go and make their beds"
But the riot kept on pushing through ("There's only...")
'Till there was only one thing left to do

Fearless
I just can't hold back what's on my mind
So fearless
My actions are regarded simply unrefined

Something deep inside me cried ("It's over")
"Walk away before you fight"
The riot kept on pushing through ("There's only...")
'Till there was only one thing left to do

Fearless
I can never live with what I've done
I'm fearless
But the fight against my conscience only just begun
Fearless
I just can't hold back what's on my mind
So fearless
My actions are regarded simply unrefined
