

Taking What's Mine

Pyramaze

I the open
I will let you fall
I can't save you
'Cause I might be giving up
I hold my breath
I carry on
I'm taking punches here tonight

I'm taking back the life that is mine
I know that it's the one that I get
I'll be so high, high, high
I'll be so high, high, high
Taking what's mine
Taking what's mine

Excuse me, it's not me that you're looking for
I'm much more than what you deserve
I'm flying higher
Higher

I'm taking back the life that is mine
I know that it's the one that I get
I'll be so high, high, high
I'll be so high, high, high
Taking what's mine

Some might say that lights got wasted in me
You might say I got everything I wanted
I wanted
Some might say that I did all I needed
You may say that you were all I ever wanted
Wanted

I'm taking back the life that is mine (The life is mine)
I know that it's the one that I get
I'll be so high, high, high
I'll be so high, high, high

I'm taking back the life that is mine
I know that it's the one that I get
I'll be so high, high, high
I'll be so high, high, high
Taking what's mine
Taking what's mine
