

The Midnight Sun

Pyramaze

I've come too far to turn back now
You must stand down to take a bow
My claustrophobia will tear your game to pieces
All the times you left me black
Have put a target on your back
It's time to repossess my life

Say goodbye to your obsession
Out of ammunition

Like a kingdom falling
Resignation's calling
You'll be out before the day is done
Just vanish into air
Your deeds need no fanfare
Surrender
Embrace the midnight sun
The midnight sun

I was the son you never had
But how come everything turned bad?
After the rain had washed your sorrows away

You took a new position
Without my permission

Like a kingdom falling
Resignation's calling
You'll be out before the day is done
Just vanish into air
Your deeds need no fanfare
Surrender
Embrace the midnight sun
The midnight sun

Look at the ways of the world now
It's a race of alarming it somehow
And the further we get from the truth
The sacrifice of innocent youths
Are we all but puppets at dance
A bittersweet, egotistical romance
Built upon the remainders of trash
Self-imploding as we crash

Like a kingdom falling
Resignation's calling
You'll be out before the day is done
Just vanish into air
Your deeds need no fanfare
Surrender
Embrace the midnight sun

Like a kingdom falling
Resignation's calling
You'll be out before the day is done
Just vanish into air
Your deeds need no fanfare

Surrender
Embrace the midnight sun
