

# Deep Down

PYT

I see you all the time  
You're watching me  
You're not the only one who notices me  
Something about the way you flash your smile  
That makes me feel like I should stay for a while

Only secretly you talk to me (ohh)  
I can't understand why  
You feel the need to hide  
Deep down in your heart you know how you feel (oh)  
Boy just keep it real with me  
You can't be wastin' my time no no

Boy you play too many games  
So baby try if you may  
I see straight through ya  
Cuz deep down you wanna be mine  
I bow my head and I pray  
We'll be together someday  
I'm gonna love ya  
Cuz deep down you wanna be mine

The sweetest things you do  
Happen when no one's there  
But when they come around  
Baby you seem so scared  
You know I dig you  
And I know you feel it too  
Don't let your boys control you  
Man, they're makin' the rules

Only secretly you talk to me (yeah)  
I can't understand why  
You feel the need to hide  
Deep down in your heart you know how you feel  
Boy just keep it real with me  
You can't be wastin' my time well nooo

Just like the rising of the morning sun  
Baby you shine before my very eyes  
Won't somebody tell me tell me why  
You failed to realize what you feel inside whoa oh

Oh only secretly you talk to me  
When I say let's go you never speak  
You act like you don't know me baby

Deep down you wanna be mine
