

after dark

Q

Can't stay here the whole night
You not even actin' right
Hell nah
(Ah, ah, ah, ah, ah)
Guess who got his groove tonight?
Maybe we drank too much
Red stripe
Red stripe

I'm goin' off of somethin', a tip my friend gave me
Got my eyes wide open, my mind just tries to get in the way
(That's how I get in the way, the more and more I try)
It's been a long time comin', I'm searchin' for somethin'
From the wildest worlds that God can only put in my face
(That's how I get in the way, the more and more I try)

Now it's after dark, I can chill with you
Just tell me where you are
The energy is everywhere
See it in your face
I'm sorry if I look too long
I like what I'm seein', ooh-ooh-ooh
Let's meet at the car, your moms can come with you
I'll tell her you're a star
I will not be wastin' time
Oh my
The gain is different
Now I'm all in my head, I guess I feel attracted
It's attraction, it's attraction, it's attraction, it's attract
ion
