

Alone

Q

In a moment where I found you
I can see the pain inside you
And I know the feeling all too well
To make you feel like you're alone
I shedded tears beside you
And I made sure that I put them in
A place where we can find it
To remember all the times we were
Alone in all our problems
Oh, we just need to solve them
But I would never take the stance
For me to get behind them
And I'd rather feel your lovin'
But right now, I don't have anything
For me to feel the way I
Want to feel, in all my ways

I'm alone
I'm alone and I can't solve it
I need someone to help me now
I'm alone
I'm alone and I can't solve it
I need someone to help me
