

be brave

Q

Power fills me up
Moments like this is enough
Glory, darling, awaiting me
These moments, oh love

It's the story of
It's the story of
It ain't ordinary to live my fear, no
Loading in a dream we made of
Be brave, woah, oh-oh
Hey, hey, be brave
In the way, the way, the way, the way
The way, the way, the way, the way
The way, the way
Be who you are, girl, you're a star

But remember
Feelings don't feel good
When you get deep down in somber nights
These new ways just feel ungrateful
I'm so grateful
We like the real you, we want the real you
You need to know
You need to know, oh

The way, the way, the way
Be brave
Be brave
Be brave
Because, because
It's all over us
It's slows all over us
Guess it's time to meet euphoria
Who taught you to hit yourself?
