

# I Get Tired

Q

I get tired 'cause sometimes I don't know where I should be  
I get no sleep in the nighttime, I cannot oversleep  
But then I over [?]  
My thoughts be carrying me  
To places I cannot imagine [?] could be  
I get tired 'cause the forces in my head talks to me  
Hypnotized in the lies my brain be feeding me  
I pray to Jesus that these demons will just fly away  
I'm tired of just being tired, being tired (Ahhhhh)

I heard these demons  
They be talking and they gotta go  
I heard these demons  
They be talking and they gotta go (Ahhhhh)  
I heard these demons  
They be talking and they gotta go  
I heard these demons  
They be talking and they gotta go

One day  
You'll be better for the right things  
Nowadays I don't like to  
Hold conversations with people that  
Don't understand that I'm tired of feeling tired  
So I'm implied to complain everyday  
I won't but I don't  
But when I wake up from a sleep I still be tired

I heard these demons  
They be talking and they gotta go  
I heard these demons  
They be talking and they gotta go (Ahhhhh)  
I heard these demons  
They be talking and they gotta go  
I heard these demons  
They be talking and they gotta go

Demons got your tongue  
Demons got your tongue  
Demons got your tongue  
Demons got your tongue  
Demons got your tongue  
Demons got your tongue

I heard these things talking in my head  
I cannot stop it  
They wait for me when I'm vulnerable  
To anything about it  
I'm constipated mentally  
To everything that relates to the problems  
I been right here before  
These things were always in my head  
I heard these things talking in my head  
I cannot stop it  
They wait for me when I'm vulnerable  
To anything about it  
I'm constipated mentally

To everything that relates to the problems  
I been right here before  
These things were always in my head  
I heard these things talking in my head  
I cannot stop it  
They wait for me when I'm vulnerable
