

number one

Q

You are the sunrise that I see
First thing in the morning
Look into those brown eyes, it brings me peace
I'm terrified of being lonely
How could I ever get this wrong?
With my selfish ways
I led us into bone crushing, heart wrenching
I'll be damned if I make it into another love

My ichiban, my number one
You're my leading star
Like my light in the dark
And you touch earth in ways that causes waves
My number one
(Ooh)
(Do I deserve you? Did she deserve me?)
My ichiban, my number one
My ichiban, my number one

I keep a dagger close to my heart
I rather dive into her [?] again
But you give a remedy
And it's the size of a thirty-six foot rage
You be the battle that I put in front of me
Take your time, with leaps of faith
'Cause it was bone crushing, heart wrenching
I'll be damned if I make it

My ichiban, my number one (Ooh, ooh)
My leading star
Yeah, that light in the dark
See, you touch earth in ways that causes waves
You got me this time, at peace
Oh, I done got peace in my mind
What's yours is mine
I could get by without a single wordly possession
As long as I got you
(As long as I got you, as long as I got you, ooh-ooh)
(As long as I got you)
(My number one, my ichiban)
(My number one, my ichiban)
(You're my number one, you're my ichiban)
(You still my number one)
