

# PRESENCE

Q

Ah, here we go

Ha ha ha ha ha ha ha ha ha ha ha ha ha ha ha  
Ha ha ha ha ha ha ha ha ha ha ha ha ha ha

You've made it right here  
Right here  
You've come so far to turn back now  
Don't turn back now  
Don't give up now

You've been looking terrified  
Don't know where you get it from  
It's feeling like a pesticide  
And moving like a pair of thieves  
Where you running from  
What you running to  
Just stay in the presence  
You chilling in the presence of  
Something that's bigger than you  
Nothing's really lining up  
It's feeling like you have no clue  
When the lights go off  
And you have no sign  
Who's showing you around here

Don't run from the presence  
Don't run from the presence  
Don't run from the presence  
Don't run from the presence  
Don't run from the presence  
Don't run from the presence  
Don't run from the presence

There is power  
There is power

Can't you see  
That the lilies are good  
And the birds are fed  
I said I care about you  
I said I care about you

You think you have nowhere to turn  
Have no-one you can run into  
You seeing people everywhere  
But feeling like it's only you  
Where you running from  
What you running too  
Just stay in the presence  
Oh oh oh oh oh oh oh oh oh  
Nah nah nah

Don't run from the presence  
Don't run from the presence  
Don't run from the presence  
Don't run from the presence

Don't run from the presence  
Don't run from the presence  
Don't run from the presence

There is power  
There is power

There is power  
There is power

Ah  
Thank you for listening  
I hope you found rest for your soul  
And when you feel it calling  
When you feel it calling  
Don't worry about tomorrow  
Today's enough

Soul PRESENT  
Soul PRESENT  
Soul PRESENT  
Soul PRESENT

Ha ha ha ha ha ha ha ha
