

Shave

Q

We always callin' it "peace sign"
Whenever they're rollin' the dope or shootin' the coke
They wanted a clean mind
Wait, uh
The sun is the soul to a clean mind
I had been meanin' to talk, discreet is the mind
They wanted a free mind
Dependin' on what I was told
I stuck to the code and kept it to me too
The voices was catchin' with me too
I heard they wanted to see through
There was never a day where they went by
Cryin' down with my sore eyes
Eyes closed when I'm lookin' high
People askin' questions, I got alibis for days

We can be everything you ever wanted
Let's all draw everything we feel like it's never been
'Cause I wonder why I never tried to be with you always
Maybe I should try to go out with you one Sunday
