

## Want

Q

You never know who you truly really want to be  
It's always cold in your heart, you know it's never free  
Can't look with eyes to wonder what you really want to see  
You never find how you truly really want to be

They say what you find is what you get  
Just don't ever be upset  
If you only knew it all  
You would have a few regrets  
What you find is what you get  
Just don't ever show it all  
But if you know of what you got  
You would never leave it there  
(Gotta get better at loving)

Then you will find that you never tried to figure out  
You're always on even when you feel your soul in doubt  
I try to cry, there's no more tears for me to let it off  
And then we are something that we'll never figure out  
Oh-oh-oh-oh

They say what you find is what you get  
Just don't ever be upset  
If you only knew it all  
You would have a few regrets  
What you find is what you get  
You would always show it all  
But if you know of what you got  
You would never leave it there  
Oh-oh-oh-oh-oh-oh-oh

It's good to know what you feel ain't always what you are  
And even though you feel you'll never go above it all  
Maybe I tried to make it work for better things  
What you want is something that you'll never figure out  
Oh-oh-oh-oh

They say what you find is what you get  
Just don't ever be upset  
Only if you knew it all  
You would have a few regrets  
What you find is what you get  
Please don't ever show it all  
'Cause only if you knew it all  
You would have a few regrets  
What you find ain't what you need, child  
'Cause only if you knew it all  
You would have a few regrets  
What you find ain't what you need  
You will find a few regrets  
'Cause only if you knew it all  
You would never leave it there

What you want now? What you want now?  
What you want now? What you want now?  
What you want now? What you want now?  
What you want now? What you want now?

What you want now? What you want now?  
What you want now? What you want now?  
What you want now? What you want now?  
What you want now? What you want now?  
What you want now? What you want now?  
What you want now? What you want now?  
What you want now? What you want now?  
What you want now? What you want now?  
What you want now? What you want now?  
What you want now? What you want now?  
'Cause what you want ain't what you need  
'Cause what you are is what you need  
'Cause what you want ain't what you need  
'Cause what you are is what you see  
'Cause what you want ain't what you need  
'Cause what you are is what you need  
'Cause what you want ain't what you need  
'Cause what you are is what you see  
'Cause what you want ain't what you need  
'Cause what you are is what you need  
'Cause what you want ain't what you need  
'Cause what you are is what you see
