

Who Will?

Q

You just want attention
I just want affection
The meanings aren't the same
But when you don't get your way, girl
I can't get a message
Excuse me if I'm messy
I have to address this
If we don't last a day
It's because you played these games
And the others won't inject it

So when I'm gone who will, girl?
Who will, girl?
Who will, who will?
When I'm going, who will?
Stop playing, who will?
Who will, just tell me who will?
When I'm gone who will?
Ain't nobody wanna swallow your pills
'Cause you have something that nobody will
Wanna deal with
So tell me who will?
If it ain't me
It ain't gon' be no one else
