You're special
The way you move, it's a handful
My baby's worth it
Though we did hurt sometimes you earned it
You're special
Do what you wanna do
The way you switch your moods
Your funny attitudes
In ways that no one understands you
Like I do
You're special
My baby's special

You're special
The way you move it's a handful
My baby's worth it
Though we did hurt sometimes you earned it
My baby's special
Do what you wanna do
The way you switch your moods
Your funny attitude
In ways that no one understands you
Like I do
You're special
My baby's special
My baby, my baby's special
