

Goddamn I'm a man that is on a mission  
30 thousand, let that wallet glisten  
Hundred thousand, now they gotta listen  
Now they trying to come up on the vision  
So they seeing me in 2020  
Yeah they be seeing me, 2020  
I got so many with me I'ma end ahead man I'm already ready  
It's 2020, yeah, 2020  
4 years time and imma have so many pennies man, the envy's heavy yeah  
2020, 2020  
I got so many with me I'ma end ahead man I'm already ready, yeah

Making money on the run, thats running business  
Want to do this shit for fun, that's some decision  
Coming in this, I wondered "is this a road that they'll be fucking with?" they loving it, making paper like Dunder Mifflin  
Still got haters and doubters I keep on running into  
You got a problem, hop on the track, I'd love to diss you  
People hate on successes, you got some fucking issues  
Like god damn, need me to get you another tissue?  
Please leave and don't come back, no one will miss you  
I won't, I'll shrug my shoulders and just continue  
On my mission, I've counted a lot of villains  
I'm kicking them down repeatedly, lyrically like it's some jiu-jitsu  
I'm doing oh so well  
Y'all emo, Tokyo Hotel  
Man, I flow so well, and I don't just yell  
Man I'm like the word Gold, but I hold no Ls  
Man, you see me, up on your TV  
Y'all scratching the surface, but I am in 3D  
You do not believe me  
I'm Mario and y'all are worse than Luigi  
My pics getting retweets  
I am exotic like water from Fiji  
I freestyle my flow, and it's better than your writings, you can't defeat me, ay!
