

BEING YOURSELF

Quadeca

I wanna change
I wanna switch your lens so you can see my frame
I wanna find every light source and redirect it

I don't wanna see another reflection of anyone
Especially not me, but not anyone
Happy to point you in a new direction
I want you to do your job
You want, they want, we want me to do your job

I'd switch, ah, I'd give anybody else
I wish, I wish, I wish you could be yourself
I wish, ah, I wish you could be yourself
I wish, ah, I wish you could be yourself
I wish, ah, I wish you could be yourself
I wish, ah, uh, I wish you could be yourself I wish, ah, ah, I
wish, ah, ah
I wish, ah, ah, I wish you could be yourself for me

I don't wanna see you, see you the wrong way
I don't wanna be you, be you the wrong way
I don't wanna leave you, leave you the hard way
I don't wanna leave you but I cannot stay

Look around, look around, look what you could've found
Manning up, standing up, when I just stood around
Look around, look around, you looked me up and down
Down and up, outta touch, somehow, I stuck around

Fine
I switched sides
I wish you could know how it felt to me
I wish, I wish, I wish you could be yourself for me (Yourself)
