

## Formula

Quadeca

Aye, when I walk up in the scene I hear an orchestra  
Now everybody telling me I don't perform enough (Nah)  
My math teacher told me that I never be shit (What aye what?)  
And now I'm searched more then the quadratic formula (Aye, Aye)  
Aye, I got the formula, (Aye) I got the formula (Yeah)  
You got the sauce but goddamn I got the formula (Got the formula)  
People always asking Ben "Why you record so much (Why?) "  
I got to fry up all these rappers quick like order up

Formula like I'm Mr. Krabs  
I change and transform it up, you stuck in the past  
I wear supreme goggles to my science lab  
Yeah, it hurts to write this song because I don't like to brag  
And now I tied myself up like a Nike Mag  
People love to criticize me for the life I've had  
They make it about white and black like I'm Michael Jack  
I make these haters look confused like it's Dora asking where S  
wipper at  
Aye, aye, aye!  
Yeah I'm supreme because I got it on me, now they copy that like  
a walkie-talkie  
And I'm feeling like they really want to stop me, trying to fold  
my paper like it's origami  
Want to justify the hate they call me cocky, and I am  
Cause your girl call me papi trying to take their shot like it's  
the paparazzi, I'm a fax machine up in a lot of copies  
Aye  
Still saying "Who would of thought like who would of guessed it  
?"  
Haven't lifted weights in two years but some how I'm always flexing  
If you really want to find the answer to your question here is  
where you should look  
Want the secret to the sauce motherfucker better go and find a  
cook book
