

Macbeth, The Rap

Quadeca

Heheheheh...

It's Macbeth, time to begin this, I'm just tryna be the richest
No referee can come mess with me, 'cause my fouls are fair; thr
ee witches

Taste the glory, it's delicious

If you see me in your city with a dagger, better known I mean b
usiness

Didn't want to think about my deeds 'cause I didn't want to rel
ive it, but now, I'm killin' the system

If Neptune tried to wash me, yeah, I'd go and give him sea-
sickness (Oh!)

Killing spree to my enemies, say rest in peace to my victims
For eternity, my soul's burning free, and now I'm in need of fo
rgiveness

But I have 'done the deed', and 'what's done is done', so no ti
me for being religious

It's time for me to be on the throne and kill every single witn
ess

With Lady Macbeth, we always make it the best, leaving these ha
ters for dead

Murdering sleep; I'm never taking a rest, going insane in my he
ad

Thunder or lightning or rain, Macbeth's always laying the verse
down

I don't care about no prophecy, ask Banquo how that worked out
Now that boy's dead in the ground... shut up, ghost, you ain't
scaring me

Try to haunt me all you want and I'll kill your posernity
Sorry, but 'blood will have blood', it's too late to turn aroun
d now

I used to care about murder, but now I do it without doubt
And I hope they never found out, 'cause I'm in it for the empir
e

And it looks like 'the milk of human kindness' has finally expi
red

Macbeth, I'm like God on the throne, I am on top of my zone
Tell Lady Macbeth I'm a real man, I'm doing it all on my own
Say I'm a murderer 'cause I just murdered this track, never am
turning it back

Go till I'm winning like number one, I just finished this song,
and what's done is done

Damn, son, where'd you find this?
