

U DON'T KNOW ME LIKE THAT

Quadeca

Talking all night
I held you still
But you don't know me like that
And you never will
Calling all night
It was never real
Cause you don't know me like that
And you never will
It was obvious to say
It was everyone to blame
It was sensitive to light
The most vulnerable decay
I took you out of my list of names
I'm timid and still ashamed
I left a note on the picture frame
You hid it like it's a stain
I did what I had to do
And who does it matter to?
Unfamiliar avenues
I'd do it for half of you
I took you out of my list of names
I'm timid and still ashamed
I left a note on the picture frame
You hid it like it's a stain
I did what I had to do
Who does it matter to?
Unfamiliar avenues
I'd do it for half of you ooh ooh ooh ooh
Talking all night
I held you still
But you don't know me like that
And you never will
Calling all night
It was never real

But you don't know me like that
And you never will
Let's go, let's go, let's go
Since I first came in the room
Couldn't make out what to do
Tried to stomp around in the hall all-all-all
Don't you dare look back I've seen it all-all-all-all
Yeah

I need to go, I need to run, I need to hide
I took it all, I could recall the reasons why
Ohh I shoulda told you something years ago
Talking all night
I held you still
But you don't know me like that
And you never will
Let's go, let's go, let's go
Calling all night
It was never real
But you don't know me like that
And you never will
It was obvious to say

It was everyone to blame
It was sensitive to light
The most vulnerable decay
