

# Horse

Quadron

I'll make you love me  
Till my end of time  
Make my soul unwind  
Making me a home  
Holding me slowly  
But i'll still be watching your every move

You know that ill be holding on  
Until you get off your horse

Me a home  
Make me a home  
While seeds are  
Growing your dome

And it could have been any other  
See a child only needs a mother  
I don't need another bother

You know that ill be holding on  
Until you get off your horse

Bring me back to the day of nothing  
Bring me back to where i came from
