

## Pressure

Quadron

I've been trying  
To get you under my pressure

I've been trying to hurt you  
For as long as i can remember  
Looking for the spineless point  
And change your summer into winter  
When i look into your deepest  
I see myself at my weakest  
I am walking deep waters  
To burn your spendid and virtuous bridges

But you said  
Show show show  
But i wont  
Grow grow grow

I've been trying  
To get your under my pressure

You've accepted my crimes  
As if you knew they were coming  
Like nicking candy from a kid  
You been defeating my verbal beatings  
No i wont stop my torture  
Until you show you got tears too  
I'd rather you deal with your temper  
Than feel your careless empathy

But you said...
