

## Do U Luv Me

Quando Rondo

Lets take a trip out to Jamaica, we won't be gone for long  
Back and forth, you steady got me pacing, like where did I go wrong  
I hate that you said that "I hate you", the power of the tongue  
Whats up with all this snakey shit, you must be think I'm dumb  
I'm ridin roud with that drak', like Keke do you love me  
One thing I seen I can't relate, I really stand for something  
I gave you food from off my plate when you was starvin homie  
Like why you bring up my mistakes and you not no way better  
Like why they hate I made a way when I was damn near homeless  
That's back to biz', by yourself when you go chase the cheddar  
She said be safe and keep it on you, you know niggas be jealous  
I got so much weight on my shoulder, I can't lift a feather

I often have thoughts like, do you love me?  
I can't keep her off my mind  
And I know damn well that she not for me  
I just can't leave from her side  
It ain't hard to tell that I need loyalty  
Someone I can finally call mine  
You my girl and I'm your guy  
All I see is the sky when I look in your eyes

I barely speak how I feel to nobody  
All alone, I'm staying strong  
I manifested everything that I got, even this chrome  
Under my sweater 30 clip in my rod, while on the corner  
Hope things get better on my side  
Thanking God that I woke up this mornin'  
Whole hunnid shots, came through and wet up his block  
I grew up in the jungle  
My nigga [Clyde?], I know lil shorty gone ride, I swear [?]  
I'm sick and tired of hearing these lies  
Don't even hit my phone, hold up  
This might be one of the guys, like let me pick it up  
Go tat my name over your titties n thighs then let em know I'm comin  
I'm rollin' 60s till the day that I die, I gotta keep it [?]  
I ain't got no feelings and love in my heart, cause all these niggas  
phony  
These bitches plot like soon as you turn around, she fuckin on your h  
omie

I often have thoughts like, do you love me?  
I can't keep her off my mind  
And I know damn well that she not for me  
I just can't leave from her side  
It ain't hard to tell that I need loyalty  
Someone I can finally call mine  
You my girl and I'm your guy  
All I see is the sky when I look in your eyes
