

Me First

Quando Rondo

Uh-uh

(It's gotta be Lemy)
(Cxb, know he go crazy)

Check how I kick it, you the realest off topic
What make this shit a bigger difference is I come from the projects
Blood, sweat, and tears, baby, just pray for my demons
That bitch gon' sell, coppin' drip out of Neiman's

I'm on these pills, I might fly out to Venus
How my mama feel if she see me on the cement?
I'm livin' out my thoughts for real, and nah for real, now look what he wort
h

I done seen my man and dropped a tear on this T-shirt
I swear to God, life traumatized, I'm goin' out while lettin' my heat burst
You crossed me one too many times, so now I gotta put me first
I lost some pennies, nickels, dimes, so it's now time to put me first
You broke the code when it was time, so now it's time to put me first

I came from postin' by that store
To keep it real, I really been broke
It's like my heart done really, really been broke
I get the chillies, think I'm gifted just for seekin' for hope
This from the heart, if you can feel me, I'm just speakin' for bro
It's like Jakiyah like a butterfly that won't fly away
And all for you, I'll jeopardize and I'll go ride with the K (Yeah)
We be sippin' sizzurp like Champagne, Chardonnay
Two-fifty on the cizzurb, pull up, parkin' lot the Wraith
Zay really let me hizzurt when I found out he fucked Jai
Like, damn, cuz, you was my dog, I made sure food was on your plate
So much shit got me hurt, I take it day after day
It's like I gotta pop these Percs so I could heal all the pain

I'm on these pills, I might fly out to Venus
How my mama feel if she see me on the cement?
I'm livin' out my thoughts for real, and nah for real, now look what he wort

I gave Jai the chain back, 'cause to my child, she the mother
Off the strength of my lil' daughter, shit, I gotta move cordial
My girlfriend 'bout to go to college, gotta leave, I don't trust her
It's like it's fire where my heart at, from the blood of my brother
Sometimes I wish that I could fly all the way outer space, yeah
Everything I do for fam', I wonder, would they do the same?
I know life a gamble, roll the dice and play the game, yeah
So many poles and ammo, flip the town with Lil Scavvy
Somebody get this on the camera, I'm with CxbGoCrazy (Cxb, know he go crazy)
I just wish that I could see way more of your face all in my dreams
But I don't wanna be with you no more, bae, I don't wanna be
