

# Neighborhood Hero

Quando Rondo

Yeah, yeah, ooh, uh, ayy

Quando Rondo, nigga

Relly Made

(They locked up my nigga Pablo, they hit him with a RICO

Spin on they block with my sawed-off, but keep that on the D-low

Lil' shawty look just like a model, a neighborhood hero

I fuck with... lil' mama, I fuck with her people)

I put some VV's in my teeths and that shit cost a kilo

Spin on they block for like a week, but keep that on the D-low

I'ma put some pennies in the streets just to feed my lil' people

My youngin up Miami heat at the three just like D-Rose

I know, she know, he know

But he don't know I know, we know

I know, he know, she know

But they don't know I know

I know she know, but keep that on the D-low

He know I know, I fuck 'round with her people

I know, oh, that neighborhood hero

I know, I don't know, my neck below zero

I really came from the trenches, I had to grind to get it

I got no love for these bitches, I gotta chase these benjis

I came from posted on the corner grippin' on extensions

Spin on they block, I'ma let off some shots

And I swear I won't leave 'til somebody be missin'

I don't know how to park that brand new Bentley

Got the gears unlocked, that's why they envy

Got a real big bag, if you want it, I'll spend it

I come from the trenches, they call me Lil Dangerous

They must've said you know I sent it

Got a real big Glock and the clip extended

No overlap mall, I shop at Lenox

On the dope boy block, drip in Givenchy

She want Chanel on her feet, brand new Louis V

We just spent a load at Christian D, we don't do Gucci

We can go and make a lil' movie, is you here with me?

I don't know why the fuck you do just what you do to me, woah

I put some VV's in my teeths and that shit cost a kilo

Spin on they block for like a week, but keep that on the D-low

I'ma put some pennies in the streets just to feed my lil' people

My youngin up Miami heat at the three just like D-Rose

I know, she know, he know

But he don't know I know, we know

I know, he know, she know

But they don't know I know

I know she know, but keep that on the D-low

He know I know, I fuck 'round with her people

I know, oh, that neighborhood hero

I know, I don't know, my neck below zero

Speak on my name, don't even know me, just make sure you speakin' facts

I'm nothin' like them broke kids, baby, I'ma spend them racks

Every time them hitters miss, I drop ten bands, they spinnin' back

I'm never trippin' 'bout the pack, I lose it then get it right back

Got Bonnie and Doja, that Doja smoke just like some crack

And every time I count the green and load the clip, she pour my Act '  
She's nothin' like these other hoes, she know to throw it back  
She look at me just like a boss, I drip that sauce, she dig my swag

I put some VV's in my teeths and that shit cost a kilo
