Attach him to the wheel  
You know he's alive  
Just watch him spin  
Feet are attached  
No running back  
To where you came from  
Where did you land  
You're lost in the end

That familiar feeling of when you're stuck  
Your skin it starts to fade away  
And I'm glad that I can't hear what you say  
It's all coming back

Attach him to the wheel  
You know he's alive  
Just watch him spin  
Feet are attached  
No running back  
To where you came from  
Where did you land  
You're lost in the end
