

replica

quannnic

If I could be a replica
Of who you wanted
If I'm being honest
I wouldn't
And I never would in the first place
In the first place

It's getting harder and harder to breathe
It's getting harder to wake up and see
The person I've become
I'm numb, I'm numb again
It's getting harder and harder to breathe
It's getting harder to wake up and see
The person I've become
I'm numb, I'm numb again

If I could be a replica
Of who you wanted
If I'm being honest
I wouldn't
And I never would in the first place
In the first place

It's getting harder and harder to breathe
It's getting harder to wake up and see
The person I've become
I'm numb, I'm numb again
It's getting harder and harder to breathe
It's getting harder to wake up and see
The person I've become
I'm numb, I'm numb again

I can't be who you wanted
I can't be who you wanted
Who you wanted
I can't be, I can't be
Who you wanted
