

All Diamonds

Quarterflash

When I look into the eyes of a newborn baby,
When I look into the skies of a new morn... maybe,
Everything is intertwined, interlocked
In a language long forgot.

When I recognize love in a cat's eye,
Recognize longing in the song of the magpie,
Recognize genius in the tumbleweed,
I recognize you and I recognize me and...
Love... all love. Love... all love.

We are... one flame. We are... one arc,
We are... all embers from the same spark,
We are... all god. We are... one soul,
We are... all diamonds from the same coal.

When I contemplate the life of the redwood,
Contemplate the seed in the weeds where it once stood,
Contemplate the trunk contemplate the limb,
Contemplate the fact that we're brothers in the wind.

When I open up my heart to the red deer,
Open up my heart to the fox and the kilddeer,
Open up my heart to the blood that we're sharing,
Open up my heart - open up my heart to...

Love... all love. Love... all love.

We are... one flame. We are... one arc,
We are... all embers from the same spark,
We are... all god. We are... one soul,
We are... all diamonds from the same coal.
